

- ▶ Upper/lower heat
- ✓ Can be switched separately

- ▶ Temperature control: Stepless

- ▶ Water bowl for air humidification

- ▶ Thermo hygrometer

With the thermo hygrometer, the top-mounted display case is perfect for serving meat products at meat counters, in canteens and snack bars as well as petrol stations. Because the upper and lower heat can be controlled separately, the heat supply can be adjusted as needed.

- Material: CNS 18/10 Plexiglas
- Important information: -
- Colour: Silver
- Heating type: Upper / lower heat
- Temperature range: 30 °C to 70 °C
- Temperature control: Stepless
- Water bowl for air humidification: Yes
- Digital display: No
- Interior lighting: No
- Type of door: Lifting door
- Position of the door: Reverse
- Front pane: Turned-down edges
- Type of glass: Single glazing
- Safety glass: No
- Control unit: Toggle
- Control lamp: Upper heat Lower heat
- Properties: Upper / lower heat can be switched separately Thermo-hygrometer
- Including: 1 GN container 1/1 GN 1 water bowl for air humidification
- Power load: 0,84 kW | 230 V | 50 Hz
- Size: W 610 x D 410 x H 395 mm
- Weight: 20.8 kg
